About Me

For the future of my career, I have got two roads for my carrier. First of them is to be a qualified Java Developer. Second of them is to be Software Test Engineer. I love testing softwares with some libraries and if I have an opportunity, I wanna work again in this position.

For my personality, I love reading utopian, dystopian and whodunit novels.

On the other hand I am interested in motor sports, like Formula 1. Lastly I so love teaching something to other people and sharing information with them. Therefore, I have been writing articles about Java and some book that I read.

İlkey Günel

Java Developer
